## FAMILY GOLF BUILDS HEALTHY FAMILIES!

Spending time together at the Club—whether on the golf course or in the clubhouse grill for dinner—builds healthy families. Communication is so important when raising children. An open dialogue allows parents to understand their children's issues. It also allows us to share the fun and success with our children as they grow.

## KIDZ GREEN! VILLA ROMANO

Our self-sustainable farm and local purveyors provide fresh, organic produce for our restaurant operations. Juniors participate in year-round educational programs gaining access to see firsthand how the farm works and get their hands dirty by pitching in with farm chores and learning alongside our farmers.
